AIMagineering

Author :	Jasleen Ahluwalia
ISBN 13 :	978-93-74541-64-7
ISBN 10 :	93-74541-64-5
E-ISBN 13 :	978-93-74541-64-7
Edition :	1
Pages :	274
Type of book :	Paperback
Year :	2026
Language :	English
Publisher :	Khanna Publishing House
M.R.P :	Rs 949.00
Categories :	Emerging Technologies
Condition Type :	New
Country Origin :	India

Product Description

AIMAGINEERING The Art and Science of Imagineering "The world expands in direct proportion to the depth of our imagination." — Inspired by Einstein (and lovingly upgraded by AI). Cue the lights. Enter Amitabh Bachchan or Keanu Reeves; having coffee with Imagineering. Somewhere between the first sip and a cosmic spark, the future is born. Now picture this: an 8th grader builds an AI that catches crimes before they happen, grows better crops, trades smarter than Wall Street, tracks climate credits, and designs your perfect study plan from a tablet smaller than their lunchbox. Welcome to Imagineering, where science flirts with art and curiosity turns into code. Here Computer Vision, Spatial AI, Interaction AI, and Metaverse AI don't just sound cool, they build the world you've only dreamed of. Each chapter is a fast-paced story: part thriller, part classroom comedy, where students, celebrities, and robots team up to fix everything from traffic jams to fashion disasters. Give a kid data, imagination, and a mentor and they'll outbuild your future plans before you can say "upload complete." The future isn't coming. They're already coding it. **Prof. T G Sithoram** The civil engineer monk who conjures and speaks to blueprints and carves temples out of menhirs; he doesn't just build foundations, he thinks them into existence. **Jas Ahluwalia** A spark in sneakers; she turns chaos into projects faster than AI can say "let me process that." Her laughter might just be the next renewable energy source. **Yogi Kochhar** The monk with a motherboard; he meditates on algorithms and dreams in metaphors, proving imagination isn't a luxury, it's an upgrade to consciousness.
