

Handbook of Fire Protection Engineering (Hardbound)

Author :	K. Ehteshami
ISBN 13 :	978-93-89139-18-1
ISBN 10 :	93-89139-18-X
E-ISBN 13 :	978-93-89139-18-1
Edition :	First
Pages :	320
Type of book :	Hardbound
Year :	2021
Language :	English
Publisher :	Khanna Publishing House
Regular Price :	Rs 2,995.00
Sale Price :	Rs 2,396.00
Categories :	All books , Fire and Safety Engineering , Hardbound Books
Condition Type :	New
Country Origin :	India

Product Description

This book "Handbook of Fire Protection Engineering" in response to the need for an up-to-date practical handbook which I believe is highly useful in providing help for engineers, architects, contractors, colleges, universities, and regulatory agencies. The direct and complete presentation of materials in this handbook is especially useful in the design and installation of modern fire protection systems. Also, there is a chapter on explosion prevention which is highly useful in woodworking shops, munition making factories, etc. Each chapter in this book focuses on the major area of concern for fire protection professionals. The chapters are organized and presented in the order that is compatible with the engineering textbook.

Khanna Publishing House

4C/4344, Ansari Road, Daryaganj, New Delhi-110002

Email: contact@khannabooks.com | Tel: 011-2324 44 47 - 48 | Mobile: + +91-99109 09320

Table of Contents

1. Introduction to Fire Protection
2. Antifreeze System
3. Deluge System
4. Dry Pipe System
5. Exposure Protection System
6. Firecycle System
7. Foam System
8. Halon Systems
9. Preaction System
10. Wet Pipe System
11. Explosion Protection System
12. Light Hazard Occupancies
13. Ordinary Hazard Occupancies
14. Extra Hazard Occupancies
15. Introduction to Hydraulic Calculations
16. Hydraulically Designed Loop and Grid Systems
17. Fire Protection for Homes and Mobile Homes
18. Fire Protection for Mid-Rise Buildings
19. Fire Protection for High-Rise Buildings
20. Fuel Use and Storage
21. Flammable or Combustible Liquids
22. Highly Flammable Liquids and LPG
23. Fire Protection in Industrial and Commercial Buildings 62
24. Fire Protection in Historical Buildings
25. Early Detection Alarms
26. Fire Protection for Aircraft Hangars
27. Smoke Detectors
28. Fire Protection at the Job Site
29. Fire Protection for Storage
30. Rack Storage of Materials
31. Centrifugal Fire Pumps
32. Break Tanks

Author

K. Ehteshami

Keyoumars Ehteshami was born to a Khan family from Bakhtiari tribe located in Zagros mountains in southwest Iran. He finished Elementary School in Shar kord, Iran and for High School, he attended Alborz High School, a private Kschool; in Tehran. Upon graduation from Alborz he attended University of Text and obtained a Bachelor of Science degree (B.S.) in Mathematic and Physical Science. Later he obtained Professional Engineering registration (P.E.) from Princeton University. He also holds a Master degree in Business Management (M.B.A.) from National University in Los Angeles.

For the past 44 years he has worked as project engineer, project manager and consulting engineer in the United States.
