

Automobile Technologies (Service, Skill & Design)

Author : Nathu Singh

ISBN 13 : 978-93-55380-48-7

ISBN 10 : 93-55380-48-8

E-ISBN 13 : 978-93-55380-48-7

Edition : First

Pages : 332

Type of book : Paperback

Weight (g) : 400

Year : 2023

Language : English

Publisher : Khanna Publishing House

Regular Price : Rs-299.00

Sale Price : Rs 239.20

Categories : [All books](#), [Automobile Engineering](#), [Mechanical Engineering](#)

SKU : 1725591388

Condition Type : New

Country Origin : India

Product Description

To award Certificate/Diploma/Advanced Diploma/ Degree level Professional courses to the technicians and engineers and to provide vertical mobility vertical mobility in the Service, Skills and Design stream of automotive sector, some model curriculum has been designed by the Technical Boards and Technical Universities has included in the book. The book consists of Motor Vehicle Technology, Automotive Systems, Drawing and Design. These systems are very useful for all level of technicians covering some practical and theoretical knowledge and technics of Automotive field. After studying the book, the person would acquire relevant and appropriate technical skill together with the professional competencies in the automotive fields, so that he may properly prepare to take gainful employment in the field.

Table of Contents

Unit-1: Motor Vehicle Technology -I

Chapter 1: Introduction of Automobiles

Chapter 2: Clutches

Chapter 3: Gear Box

Chapter 4: Final Drive and Driving System

Chapter 5: Wheels and Tyrese

Unit- 2: Automobile Engine System

Chapter 6: Starting, Ignition and Lubrication System

Chapter 7: Automobile Engine Cooling and Fuels

Chapter 8: Fuel Systems of Diesel Engines

Chapter 9: Fuel Systems of Petrol Engines and Carburetors

Chapter 10: Petrol Engine Injection, Performance and Testing Systems

Unit-3: Automotive System Design

Chapter 11: Design of Clutches and Gear-Box

Chapter 12: Design of Propeller Shats and Axles

Chapter 13: Design of Brake Systems

Chapter 14: Design of Suspension and Steering System

Chapter 15: Statistical Consideration in Design and Optimization

Unit-4 Automotive System Design

Chapter 16 Drafting of Sectional Views of the Main Assembles of I.C. Engine

Chapter 17: Free hand Diagram of the Main Systems of the Vehicle

Chapter 18: Drafting of Sectional Views of the Main Assemblies

Chapter 19: Vehicle Depot Organization

Chapter 20: Design of the Main Components of an Automobile Engine

About the Book

To award Certificate/Diploma/Advanced Diploma/ Degree level Professional courses to the technicians and engineers and to provide vertical mobility vertical mobility in the Service, Skills and Design stream of automotive sector, some model curriculum has been designed by the Technical Boards and Technical Universities has included in the book.

The book consists of Motor Vehicle Technology, Automotive Systems, Drawing and Design. These systems are very useful for all level of technicians covering some practical and theoretical knowledge and technics of Automotive field.

After studying the book, the person would acquire relevant and appropriate technical skill together with the professional competencies in the automotive fields, so that he may properly prepare to take gainful employment in the field.
