# **Product Description**

This book has been divided into two parts. The learning outcomes from each are as follows:

#### PART -1

The reader will gain awareness of how fraudsters:

acquire one-time passwords via social engineering to commit OTP- based crimes. exploit vulnerabilities to create false ATMs. - take advantage of poor over-sight
mechanisms to remain undetected. - exploit air gaps to manipulate data in transit for fraud.
 mislink accounts in a cross-institutional content to syphon off funds. - launder stolen
proceeds. - take advantage of default configurations to gain unauthorized network privileges
and how to devise counter-measures to deter such frauds.

#### PART -2

The Reader will gain awareness of how:

 hackers break into android smartphones to steal OTP and other confidential information encrypted information to and from your smartphone or computer can be intercepted - the computer can be hacked with or without social-engineering - websites are scanned for vulnerabilities and exploited - enemy computers are targeted in cyber wars - Security Operations Centers function and tactical and policy measures to counter such threats.
