## Product Description

**Computer Programming: Theory and Practicals** This book is written to provide fundamental knowledge of problem-solving using c programming language for beginners. It employs real-life examples for better understanding. It covers topics such as the foundation of c programming, input-output in c, control statements, Arrays and functions, and recursion & recursive solutions. This book is an amalgamation of theoretical understanding and practical applications. This book includes visuals and step-by-step solutions for explaining the key concepts. This book is aimed at diploma and undergraduate engineering students to enhance their problem-solving skills. Salient features:

- Content of the book aligned with the mapping course outcomes, programs and Units Outcomes.
- In the beginning of each unit learning outcomes are listed to make the student understand what is expected out of him/her after completing that unit.
- Book provides lots of recent information, interesting facts, QR code for E-resources, QR code for use of ICT, projects, group discussion etc.
- Student and teacher centric subject materials included in book with balanced and chronological manner.
- Figures, tables, and software screen shots are inserted to improve clarity of the topics.
- Apart from essential information a 'know more' section is also provided in each unit to extend the learning beyond syllabus.
- Short questions, objective questions and long answer exercises are given for practice of students after every chapter.
- Solved and unsolved problems including numerical examples are solved with systematic steps.

---

## Table of Contents

---

Foreword   Acknowledgement   Preface   Outcome Based Education   Course Outcomes   Guidelines for Teachers  
Guidelines for Students   Abbreviations and Symbols   List of Figures   List of Tables

- Problem solving using Computers
- Operators and Input-Output in c
- Control statements in c
- Arrays and Functions in C
- Recursion and recursive solutions

Appendices                      References for further learning                      CO and PO Attainment table  
Index

---

## Auhtor

---

**Dr. Satyendra Singh Chouhan** Assistant Professor, Department of Computer Science and Engineering
