### Product Description

The subject of Programming in C is an integral part of curriculum of all universities and institutes offering undergraduate and postgraduate and programme in Computer Science and Information Technology leading to the degree of BE/B Tech, BSc(IT), BCA, MSc(IT), MSc(CS) and MCA. This book is designed to serve as a textbook for the students taking these programmes of study. The book lays more emphasis on developing the skill of problem solving and program design, which are pre-requisites to programming.
